

Co-funded by  
the European Union

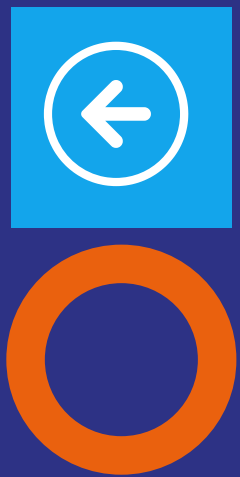

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Education and Culture Executive Agency (EACEA). Neither the European Union nor the EACEA can be held responsible for them. Grant agreement number 101085701.

# ENROOL

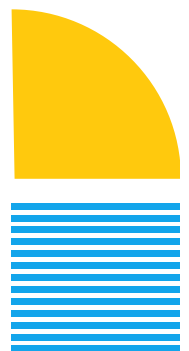

**Challenges and opportunities for implementation of regulations on environment, occupational health and safety and labour relations based on the best European practices**

# Knowledge about the GREEN and SAFE European Union for a Modern Society

**ENROL** belongs to the family of **Jean Monnet Module** projects, funded by the **European Union in the period 2022–2025**, and developed at the University of Novi Sad. The project is implemented by the **Department of Environmental Engineering and Occupational Safety and Health, Faculty of Technical Sciences** with the aim of strengthening knowledge about the European Union and its policies.

ENROL connects European values with practical application through education in the fields of **environmental protection, occupational safety and health, and labour relations**, relying on best European Union standards and regulatory frameworks.

01

# Who is ENROL for?

**ENROL is intended for:**

- ✓ Graduate students
- ✓ Master and PhD students
- ✓ Academic staff
- ✓ Professionals, and policy-makers

02

# Why should you ENROL(L)?

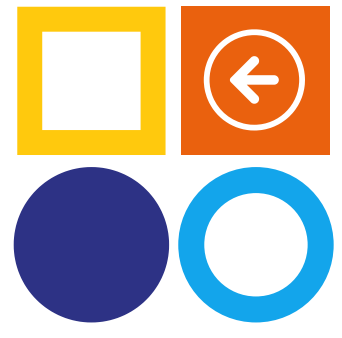

ENROL strengthens the capacities of young people and professionals to understand and apply European policies and regulations, with a particular focus on the EU Green Deal, the Sustainable Development Goals (SDGs), environmental policy, ESG frameworks, occupational health and safety, and emerging sustainability-driven regulatory trends, while promoting active citizenship and the shared values of the European Union.

ENROL represents a platform for GREEN and SAFE knowledge exchange, dialogue, and cooperation between the academic community and wider society.

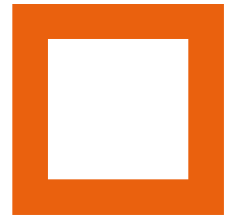

# ENROL Schools

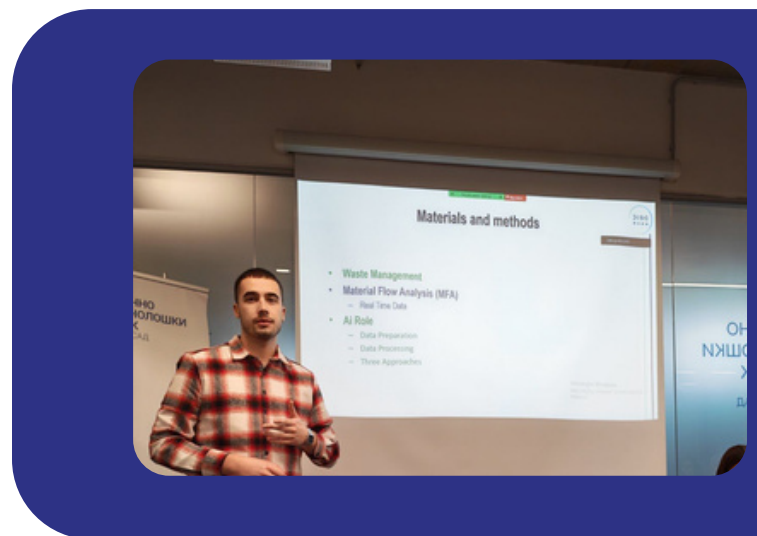

ENROL Schools push the boundaries of traditional education by offering multidisciplinary, practice-oriented programmes based on real-world examples and case studies. The courses are designed in response to concrete societal and labour market needs and build applicable knowledge and soft skills in environmental protection, occupational health and safety, and labour relations.

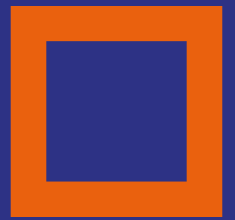

# ENROL to DISC: A Mentored Student Pathway

During the ENROL Schools, students work under the guidance of mentors to develop academic papers for international student conferences. ENROL School participants are given an exclusive opportunity to participate in the DISC international student conference, where they can present and discuss their work in an international academic setting.

# Jean Monnet ENROL Square

Under the umbrella of the ENROL School, the Jean Monnet ENROL Square is organised annually as a dedicated platform for presenting national and international projects. ENROL Square is designed as a project communication and networking hub, where project results are showcased, experiences exchanged, and new partnerships initiated.

**JM ENROL SQUARE 2025**

12th December  
10-12h

Venue: Presentation Room 1 (ground floor),  
Science and Technology Park, Novi Sad
